We are required by state regulations to have current health information on file for each participant **prior to their camp participation**. Adult campers are only required to fill out and sign the one page questionnaire, although we recommend you consult with your doctor prior to participation in strenuous activities. Children are required to have the 3 page Health Form filled out and signed by their parents AND have a current physical on file, signed by a doctor that states they are able to participate in camp or sports.

We do not allow computers or cell phones during our regular sessions. However we understand that they may be necessary during Father/Son sessions.

Cell phone service at camp is getting better (not perfect). We do have wireless internet access around the office. If you will need phone or internet access during your stay please bring your equipment. Electric outlets for recharging are scarce so we suggest auto chargers when possible. Please do not use the bathhouse outlets for recharging electronics. We would be happy to charge or store these items in the camp safe if you do not have a car/trunk available.
